

Neuro-IFRAH® Center & Clinic Owners

WALEED AL-OBOUDI, MOT, OTR/L, is a therapist and educator in the field of rehabilitation nationally and internationally for over 30 years. He is the originator

of the Neuro-IFRAH® approach and is known for his concepts and clinical skills in the treatment and management of patients affected by a stroke or brain injury. Many of his basic to advanced concepts are copied as he was the mentor of a number of known educators for many years. He is the originator of all his intermediate to advanced concepts and applications. He is also the originator of the IFRAH® concepts and applications for patients affected by orthopedic conditions. Mr. Al-Oboudi's Neuro-IFRAH® approach includes a whole system of hands on therapy, training equipment, and orthotics that are taught by Neuro-IFRAH® Instructors at top facilities and are popular and effective courses nationally and internationally.

Mr. Al-Oboudi's concepts and clinical skills are self evident and aim to set a standard of excellence in rehabilitation as they have been continuously demonstrated in live national conferences, courses, and teleconferences for over 25 years.

AMELIA CHANG, PT, DPT, MHA

has a wide range of experience in sub-acute, acute, inpatient, outpatient, and home health rehabilitation of patients affected by neurological as well as orthopedic conditions.

Ms Chang integrates her background in Yoga, Pilates and stretching into her therapy. Ms. Chang assists Mr. Al-Oboudi in therapy and education programs at the Neuro-IFRAH® Center.

Programs/ Schedule

What is Neuro-IFRAH®?

Neuro-IFRAH® Stands for Neuro- Integrative Functional Rehabilitation And Habilitation. This approach is specifically intended for patients affected by lesions at the level of the brain stem and above. This dynamic whole person, functional and effective approach was originated by Waleed Al-Oboudi, a clinician and educator in the field of rehabilitation for over 30 years.

The Neuro-IFRAH® concepts and applications are taught throughout the United States and internationally.

Neuro-IFRAH® is a highly regarded approach by skilled hands on clinicians who are focused on self evident, effective functional positive outcomes on patient's impairments, functional status and life roles.

Thousands of therapists nationally and internationally have taken Neuro-IFRAH® courses. Surveys done by independent entities confirm the massive positive feedback by actual clinicians.

Achieving higher hands on skills is a long life process that requires years of dedication to excellence in clinical skill in line with rehabilitation principals.
